## **Our School Philosophy**

### ***Transforming your future:***

We believe our school transforms lives as well as minds. Everyone within our community has a part to play in realising that dream for each and every student.

### **What this means for a student at Walsall Studio School:**

All staff will expect you to be hard working, to get into the habit of enquiring and be responsible for your learning. To be a good student you need to be concerned with discovering new facts and ways of thinking and use them to enhance your learning journey.

This will be challenging and will require commitment from you. We expect you to be positive, to get involved and to be tenacious when things get tough (both in academic work and life outside the classroom).

All staff will encourage you to grow into a mature, thoughtful individual who will use your talents creatively and imaginatively for others as well as yourself.

At Walsall Studio School, we expect your endeavour to be self critical, self aware and responsible. We are a community that expects students to be givers to our school, not just takers from it. In that way, being a student at our school will be a positive and fulfilling experience in which you contribute to the spiritual well being of the whole school community.
